⚠ 1 dead-letter job · 2 pending approvals · 4 unread notifications

Good morning, Kirt. Here's where things stand:

OKD queue 3 open · OKD-37 Slack token · OKD-38 kirt-todo ack · OKD-20 ClickHouse

OBS OBS-12 merged ✓ — awaiting sandbox validation

Maestro MAESTRO-16 mockup → ~/Downloads/maestro-themes.pdf

KEXP KEXP-1 Digital Committee tomorrow — you're ready

Two decisions needed today:

· OKD-38: kirt-todo threaded reply acknowledgment — policy decision

· MAESTRO context/compaction planning — add to sprint planning

Where would you like to start?

Message Damon… (Shift+Enter to send)

[Job: ClickHouse integration surface — OKD-20]

→ WebFetch clickhouse.com/docs/en/interfaces/http ····· done

→ WebFetch clickhouse.com/docs/en/integrations ····· done

→ WebSearch "ClickHouse enterprise auth OAuth2" ····· done

→ WebFetch github.com/ClickHouse/clickhouse-go ····· done

Findings:

Protocol support

HTTP (8123) — query/insert, CSV/JSON/Parquet/Arrow

TCP (9000) — full feature set, streaming, binary

MySQL wire — compatible with MySQL clients

PG wire — compatible with PG clients + BI tools

Auth Basic · X-ClickHouse-Key header · mTLS

OAuth2: not native — via reverse proxy (Altinity, Aiven)
